Highlights

Over the past few years, we have continued our efforts to expand our specialties so Lower Keys residents can receive care close to home. Keys Medical Group is the largest multispecialty provider practice in the Lower Keys, offering three primary care locations plus general and interventional cardiology, gastroenterology, orthopedic surgery, obstetrics and gynecology, psychiatry, and pulmonology.

COVID-19 CARE

Our team has cared for more than 430 COVID-positive inpatients since March 2020. Monoclonal antibodies have been administered to more than 360 outpatients to help avoid severe symptoms and hospitalization.

CARDIOLOGY

Since 2019, more than 375 hearts beat stronger following cardiac catheterization. Our interventional cardiologist offers this life-saving procedure and other treatments for heart health. The hospital is accredited by the American College of Cardiology as a Chest Pain Center and the Echocardiography Lab is accredited by the Intersocietal Accreditation Commission.

EMERGENCY MEDICINE

As the sole community provider with a 24-hour emergency department, we are here when our residents need us. Several recognitions demonstrate our enhanced care, including accreditation by The Joint Commission as a Primary Stroke Center and by the American College of Cardiology as a Chest Pain Center. We were also recognized with the American Heart Association's "Get With The Guidelines" Stroke Silver Plus: Type 2 Diabetes Honor Roll.

SURGICAL SERVICES

Our upgraded robotic surgery system assists our highly skilled surgeons with minimally invasive procedures that support faster recovery times, including hysterectomies, fibroid surgeries, colon surgeries, gallbladder surgeries and general surgeries.

WOMEN'S SERVICES

Newborns bring joy and our caregiving team helps moms with prenatal care, delivery and postpartum care. Keys Medical Group OB/Gyn welcomed Margo Von Mauw, Certified Nurse Midwife, in 2021. Mammography services at our Women's Imaging Center are accredited by the American College of Radiology.

BEHAVIORAL HEALTH

Behavioral Health services are vital to our community. Our 23-bed adult inpatient psychiatric unit provides safe, quality care that is complemented by our new outpatient behavioral health services through Keys Medical Group.

DEVELOPING CLINICIANS FOR THE FUTURE

Our partnership with The College of the Florida Keys helps nursing students begin their careers in the Lower Keys. A new scholarship fund will help local students find their passion in healthcare careers.

COMMUNITY SERVICE & SUPPORT

We are dedicated to our community and provided donations and sponsorships to support community organizations, including those made in honor of our medical staff on Doctor's Day to Habitat for Humanity, the Key West Police Love Fund, and Boys and Girls Club of the Keys Area.
